

Thanks For Enjoying Draught To-Go

- When transporting, keep out of the reach of the driver.
- Ensure the growler will remain upright.
- Do not transport the growler in your vehicle's trunk during the summer.
- Keep the growler cold! Once it arrives home, store in the fridge.
- A sealed growler is good for 72 hours after being filled.
- Once it has been opened, it should remain carbonated for 24 hours. Keep cold and capped when not in use.
- Pour into a glass as you would a beer bottle.
- When emptied, rinse immediately with warm water.
- If it is being returned for deposit refund or to be refilled, you can discard the cap - they are not reusable.
- Please enjoy responsibly. Cheers to beers!
